ABOUT WALLACE CAMERON INTERNATIONAL

Wallace Cameron International (Wallace Cameron) is the trusted global partner for Workplace First Aid, Occupational Health, and Safety.

We design and manufacture compliant solutions that help businesses meet their regulatory requirements with confidence and safeguard their employees. Wallace Cameron provides first aid products suitable for a range of business settings, from low-risk office environments to construction and manufacturing facilities. We empower businesses to foster safer, more responsible practices, and be prepared for every eventuality.

Established in 1950, our reputation has been built over decades of consistent quality, responsible manufacturing, and a deep understanding of regulated environments. From product design to supply and support, everything we do is underpinned with the same principle: first aid should be dependable, compliant, and ready when it matters most.

We work closely with our distributor partners to support traders through the strength and credibility of the Wallace Cameron brand, backed by a clearly defined product system and a commitment to sustainable and ethical practices.

As a carbon-neutral, zero-waste manufacturer with independently verified sustainability credentials, we are committed to responsible progress alongside uncompromising performance.

Wallace Cameron combines heritage, innovation, and regulatory expertise to set a higher standard in workplace first aid, delivering protection people can trust, and partnerships built to last.

A Royal Warrant *of Appointment*

BY APPOINTMENT TO
HIS MAJESTY KING CHARLES III
MANUFACTURERS AND SUPPLIERS OF FIRST AID DRESSINGS
WALLACE CAMERON INTERNATIONAL LTD
CHESHIRE

The Royal Warrant

This marks the continuation of our long-standing relationship with the Royal Households and reflects our enduring commitment to quality, service, sustainability, and the development of our people. The Royal Warrant is a highly respected mark of recognition, awarded only to companies that meet the highest standards and demonstrate responsible, sustainable business practices.

This new appointment builds on our previous Warrant held under His Majesty in his former role as Prince of Wales. We are proud to carry this legacy forward under his reign as King, further reinforcing our dedication to operating with integrity and purpose.

Wallace Cameron International's grant is for the manufacture and supplies of first aid dressing.

Leading First Aid *Responsibly*

Sustainable Practices and Products

At Wallace Cameron, sustainability is a core aspect of everything we do. As pioneers in workplace first aid compliance, we are committed to creating products and practices that protect both people and the planet.

Independently Assessed Sustainability

We are proud to be part of the Crest Medical Group, a carbon-neutral organisation, continuously working toward our goal of becoming a net-zero organisation.

Our sustainability credentials include:

- Annual EcoVadis sustainability rating in 2025 placed us among the top 15% performers globally for responsible sourcing, environmental management, social, human rights, and ethics.
- Planet Mark Certification - we are certified carbon neutral and are working towards net zero.

In 2025 we launched the most sustainable First Aid Kit on the market, setting new standards in eco-considerate design and function. This industry-first kit includes:

- SGS-certified 100% recycled and recyclable plastic PGB box and bracket.
- Biodegradable, compostable wipes.
- Viscose-based triangular bandages.
- Medical-grade paper packaging.
- Recyclable cardboard pouches for gloves, thermal blankets and resuscitation aids.
- Recycled plastic handles on reusable Tuff-Cut scissors.

Sustainable Products and Practices

Regulatory Compliant
and Quality Assured

Compliance Led First Aid

Our product ranges are designed to help businesses meet and exceed Health and Safety Executive (HSE) and British Standards (BS) requirements, supporting ongoing compliance and strengthening their commitment to first aid provision and preparedness.

Quality Assured

At Wallace Cameron we guarantee that all our first aid products conform to relevant internationally recognised standards including, Medical Devices Regulation (MDR). Our range of UKCA and CE marked products are suitable for UK and export marketd. Our in-house quality department ensures regulatory compliance from certification to distribution for stockists and their customers, ensuring products are market ready, safe and compliant. When stocking our range, we will provide on request all regulatory documentation required from Declarations of Conformity to practical information covering materials used, shelf life and packaging specifications. Our team will help you navigate complex market entry requirements, so that you can focus on selling the Wallace Cameron offering with complete confidence.

Regulated and Certified

Our robust quality management systems are independently audited, and we are ISO 13485: 2016; ISO (Directive 93/42/EEC) certified.

01
Compliance and assurance

The Standard in First Aid
For Every Workplace

Industry Sector Specialists

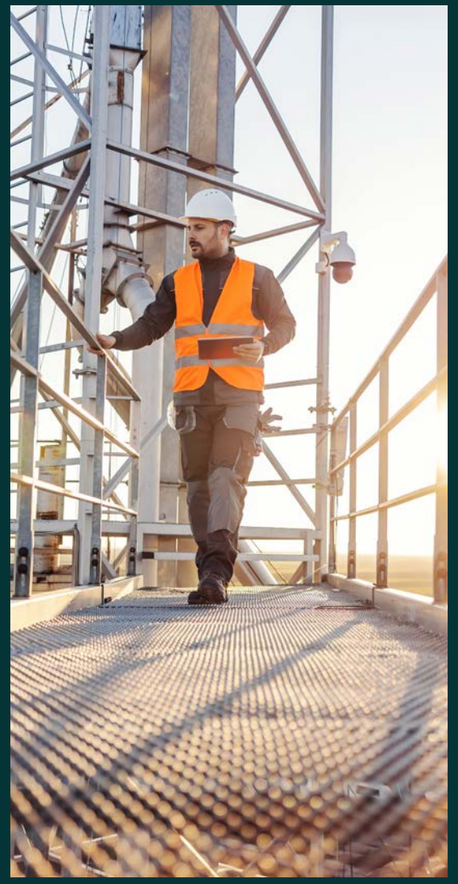

The Wallace Cameron workplace first aid and safety range is built to meet the demanding requirements of regulated industry sectors. From minimal-risk environments such as offices to high-risk settings including manufacturing and chemical processing, our comprehensive product portfolio supports compliance.

Choose from sector specific products including, blue plasters and burn-cooling topical gels for the catering industry, specialist personal protective equipment (PPE) and a comprehensive biohazard clean-up portfolio for the care sector, alongside critical injury treatments for public emergencies. Wallace Cameron's products meet regulatory requirements, Health and Safety Executive (HSE) requirements and higher British Standard BS8599-1:2019+A1:2026 specifications across diverse sectors.

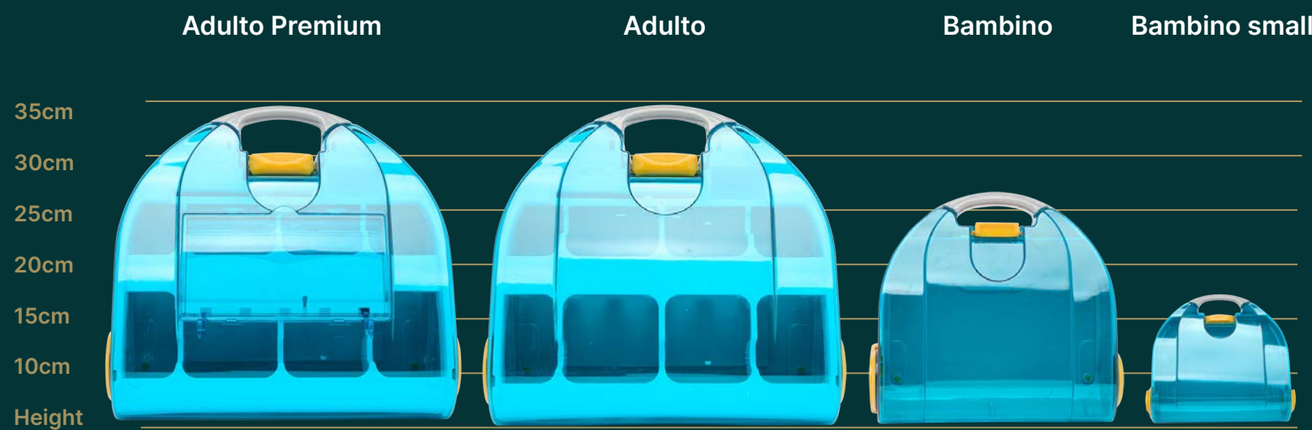

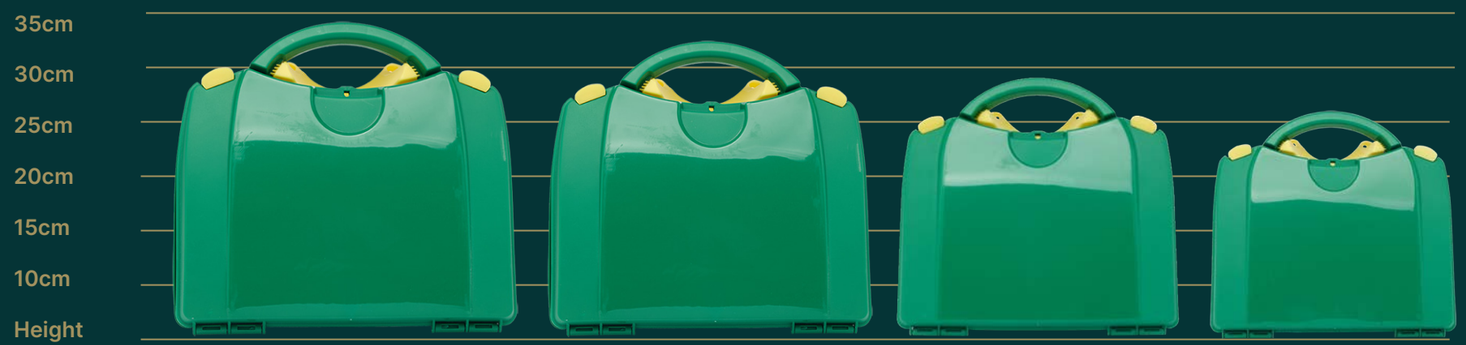

Box guide
Size Comparisson

This guide provides a visual comparison of the first aid box portfolio, illustrating the relative sizes of each design across the collection. From compact solutions intended for personal and vehicle applications to larger workplace boxes, the comparison highlights the progression in size between families and formats. The range includes options suitable for a variety of first aid applications, environments, and storage requirements.

01
Box Guide

Adulto Family

Adulto Premium

The Adulto Premium is our most advanced first aid box, designed for professional and customer facing environments. Featuring an integrated plaster dispenser for quick and convenient access, it combines practical functionality with a sleek, modern appearance, making it ideal for front of house areas, offices, hospitality settings, and customer-facing workplaces.

- Convenient Plaster Dispenser
- Internal Compartments for Easy Component Identification
- Transparent Front for at-a glance Stock Management
- Rear Compartment for Accident Report Books
- Ergonomic Lid Release Button
- Discreet Bracket for Mounting On Wall

Dimensions

Width 360 mm
Height 350 mm
Depth 130 mm

Adulto Standard

The Adulto Standard offers the same professional design and practical functionality as the Premium version, without the integrated plaster dispenser. Designed for professional and customer-facing environments, it provides a sleek, modern appearance while ensuring first aid supplies remain organised, accessible, and ready to use in offices, hospitality settings, and general workplaces.

- Internal Compartments for Easy Component Identification
- Transparent Front for at-a glance Stock Management
- Rear Compartment for Accident Report Books
- Ergonomic Lid Release Button
- Discreet Bracket for Mounting On Wall

Dimensions

Width 360 mm
Height 350 mm
Depth 130 mm

Bambino

The Bambino Box combines premium styling with a compact, space-saving design suited to modern environments. Featuring a sleek wall-mounted finish, it delivers a professional appearance while remaining practical for smaller spaces. Optional internal inserts help keep contents tidy, organised, and easily accessible for efficient first aid management.

- Internal Compartments for Easy Component Identification

01
Box Guide

Mezzo Family

Mezzo

The Mezzo Box is designed for practical and physically demanding environments while still maintaining a premium, professional appearance. Its lightweight yet durable construction makes it a convenient solution for busy workplaces where reliability and accessibility are essential. Internal compartments help keep contents organised, tidy, and easy to locate for fast and efficient first aid response.

- Semi-Transparent Front
- Shatter-Resistant Material
- Internal Compartments for Easy Component Identification
- Secure Clip to Fasten Lid
- Easy-Release Wall Mount
- Lightweight

Dimensions

Width 260 mm
Height 310 mm
Depth 10 mm

Vivo

The Vivo Box is a compact and lightweight solution designed for convenient first aid storage in smaller spaces. Its practical design makes it particularly well suited for vehicle first aid kits, while still providing a professional appearance and easy access to essential supplies. The durable construction helps keep contents protected, organised, and ready for use when required.

- Internal Compartments for Easy Component Identification
- Transparent Front for Simple Stock Management
- Ergonomic Lid Release Button
- Easy-Release Wall Mount
- Lightweight

Dimensions

Width 200 mm
Height 190 mm
Depth 90 mm

Piccolo

The Piccolo Box is a compact and lightweight solution with a slimmer profile for convenient storage in tighter spaces. Commonly used for supplementary first aid kits, vehicle first aid kits, and home first aid applications, it offers a practical and accessible way to store essential supplies while keeping contents protected, organised, and easy to reach when needed.

- Internal Compartments for Easy Component Identification
- Transparent Front for Simple Stock Management
- Ergonomic Lid Release Button
- Easy-Release Wall Mount

Dimensions

Width 210 mm
Height 200 mm

Sustainable
First Aid

Wallace Cameron Sustainable First Aid uses advanced eco-friendly materials and reduced plastic components to deliver trusted first aid performance while helping organisations meet their ESG commitments, supporting sustainability values and promoting compliance.

Our Sustainable First Aid is manufactured from recycled or recyclable materials and designed to minimise single-use plastics without compromising on clinical effectiveness. Kits and Refills are available in different sizes and configurations to comply with either HSE of BS8599-1:2019+A1:2026 for a range of workplaces including offices, retail, catering, and manufacturing and industrial settings in our recyclable, robust PGB boxes.

02
Sustainable First Aid

Wallace Cameron Sustainable BS8599-1:2019+A1:2026 First Aid Kits

Advanced first aid for higher-risk workplaces with sustainability at its core.The Wallace Cameron Sustainable BS 8599-1 (2019) Workplace First Aid Kit is designed for organisations needing comprehensive cover. Fully compliant with the latest standard, it includes a wider range of items than standard HSE kits, such as bandages and burn dressings, making it suitable for construction, manufacturing, logistics and catering.

Sustainability is built in throughout. The case is made from SGS-certified, 100% recycled and recyclable plastic with a label-free screen-printed design. Packaging uses recyclable and recycled materials, and many components are made from renewable or recycled sources such as bamboo, viscose and recycled plastic. Biodegradable shrink wrap is available on request.

Wallace Cameron Sustainable Dressings

Sterile workplace dressings with more sustainable packaging.

The Wallace Cameron Sustainable Dressings range includes essential sterile dressings for compliant workplace first aid kits. Suitable for both BS8599-1:2019+A1:2026 kits, they meet strict safety and performance requirements across a wide range of working environments.

To ensure full compliance, the dressings are manufactured using traditional, medically approved materials. Environmental impact is reduced through the use of medical grade paper packaging, offering a more sustainable alternative to conventional plastic wraps without compromising product integrity.

These dressings are ideal for workplaces of all sizes, including education, construction, catering, transport and office settings. They provide reliable, high quality wound care while supporting organisations looking to make more responsible product choices.

Product code - Medium - 1401001S
Product code - Large - 1401002S
Product code - Finger - 1401003S
Product code - Eye Pad and Bandage - 1401020S

Wallace Cameron Sustainable Triangular Bandage

A plastic-free, sustainable essential for workplace first aid kits.

The Wallace Cameron Sustainable Triangular Bandage is used in HSE and BS 8599-1 (2019) kits for slings, support and immobilising injuries.

Made from 100% viscose, it is plastic-free and supplied in recyclable medical-grade paper packaging.

Suitable for construction, logistics, education and offices, combining reliable care with a more sustainable choice.

Product code - 1804001S

Wallace Cameron Sustainable Sterile Saline Wipes (Box 10)

Reliable wound cleansing with sustainable materials and longer shelf life.

The Wallace Cameron Sustainable Sterile Saline Wipes contain 0.9% sodium chloride for cleaning minor cuts, grazes and burns, suitable for HSE and BS 8599-1 (2019) kits.

Made from 100% viscose, they are plastic-free and biodegradable, with each wipe individually sealed to maintain freshness. Supplied in recyclable cardboard packaging to reduce plastic use.

Suitable for construction, catering, education and office environments, offering dependable care with a more sustainable choice.

Product code - 1601026S

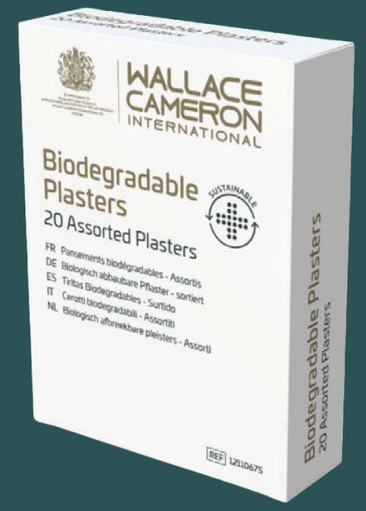

Wallace Cameron Sustainable Biodegradable Assorted Plasters (Box 20)

Plastic-free, breathable protection for minor workplace injuries.

The Wallace Cameron Biodegradable Assorted Plasters are made from 50% viscose and 50% bamboo pulp, offering a sustainable alternative for covering cuts and grazes.

Supplied in fully recyclable cardboard packaging, they reduce single-use plastic waste while maintaining reliable performance.

Each box contains 20 assorted plasters, suitable for offices, education, retail, and construction.

Product code - 1211067S

Wallace Cameron Sustainable Nitrile Gloves

Reliable hand protection with more sustainable packaging.

The Wallace Cameron Sustainable Nitrile Gloves provide latex-free protection for workplace first aid and hygiene tasks, suitable for HSE and BS 8599-1 (2019) kits.

Supplied in paper packaging to reduce single-use plastic while maintaining comfort, dexterity and performance.

Ideal for healthcare, construction, catering, education and office environments, balancing safety, compliance and sustainability.

Product code - R04224S

Wallace Cameron Sustainable Microporous Tape

Secure, breathable fixation with more sustainable packaging.

The Wallace Cameron Sustainable Microporous Tape secures dressings and bandages in workplace first aid kits. Measuring 2.5cm x 5m, it offers reliable adhesion while remaining breathable and skin-friendly.

Made from medical-grade materials, it is supplied in fully recyclable cardboard packaging to reduce plastic use.

Suitable for construction, education, catering and offices, it balances comfort, reliability and more responsible packaging.

Product code - 2005015S

Wallace Cameron Sustainable Resuscitation Aid

Single use CPR protection with more sustainable packaging.

The Wallace Cameron Sustainable Resuscitation Aid provides a hygienic barrier between the first aider and casualty during mouth to mouth resuscitation. Designed for single use, it supports safe and effective emergency response while helping organisations meet their sustainability goals.

To reduce environmental impact, the resuscitation aid is supplied in a recyclable cardboard sleeve rather than a traditional plastic pouch. This simple change helps minimise plastic use while maintaining product integrity and hygiene.

Compact and easy to include in any first aid kit, it is suitable for a wide range of workplace environments including offices, construction sites, education, hospitality and public spaces. A practical essential for safer resuscitation with more responsible packaging.

Product code - 5001018S

Wallace Cameron Sustainable Thermal Blanket

Essential emergency warmth with reduced plastic packaging.

The Wallace Cameron Sustainable Thermal Blanket helps retain body heat and prevent shock in emergencies across workplace settings.

Made from traditional foil for effective insulation, it is supplied in a recyclable paper pouch to reduce single-use plastic waste. Ideal for construction, transport, education and outdoor environments, it provides reliable emergency warmth with more responsible packaging.

Product code - 4803009S

Wallace Cameron Sustainable Conforming Bandage

Flexible support for securing dressings and light injury care.

The Wallace Cameron Conforming Bandage is stretchable, breathable and designed for reliable hold. Wrapped in medical-grade paper instead of plastic to reduce environmental impact while maintaining performance.

SKU - 1801009S

Wallace Cameron First Aid Guidance Leaflet

Clear first aid guidance for compliant workplace response.

The Wallace Cameron First Aid Guidance Leaflet provides simple instructions for managing common injuries, supporting HSE compliance in workplace first aid kits. It covers cuts, burns, bleeding and shock in an easy-to-follow format for use in emergencies.

Suitable for offices, construction, education and retail environments, supporting safe and informed first aid response.

Product code - 5402012AS

First Aid Kits

Wallace Cameron First Aid Kits provide compliant solutions for workplaces of all types.

Our First Aid Kits are designed around regulatory compliance and realworld usability. First Aid Kits meet HSE guidance and the BS8599-1:2019+A1:2026 standards for workplaces and transport. Whilst our consumer offering favours travel, leisure, and pet care. Contents are organised for quick access during an incident, housed in a range of our distinctive boxes, bags, and pouches.

03
First Aid Kits

Wallace Cameron BS8599-1:2019+A1:2026 Workplace First Aid Kits in Mezzo Box

High capacity first aid with compliant contents and a clean, professional finish.

The Wallace Cameron Workplace First Aid Kit is designed to support busy workplaces with larger teams. Fully compliant with BS8599-1:2019+A1:2026, it contains a comprehensive range of components to help ensure effective response to a variety of workplace injuries.

The robust case provides quick and easy access in emergencies while maintaining a tidy, professional appearance. Its durable design and clearly organised layout make it well suited to offices, education settings, warehouses and shared workspaces.

Wallace Cameron 50 Person HSE First Aid Cabinet

High capacity first aid provision for larger workplaces.

The Wallace Cameron 50 Person HSE First Aid Cabinet is designed to support larger teams in meeting Health and Safety Executive requirements. It contains a comprehensive range of essential first aid supplies to help manage minor injuries and respond effectively in emergency situations.

Housed in a robust cabinet, it provides secure storage while keeping contents clearly organised and easy to access. The wall mountable design ensures high visibility and quick access when needed, making it well suited to busy working environments.

Ideal for larger workplaces such as factories, warehouses, offices and industrial settings, this cabinet offers dependable and compliant first aid provision. A practical solution for organisations requiring a higher capacity kit with durable, long lasting storage.

Wallace Cameron BS8599-1:2019+A1:2026 Catering First Aid Kits

Reliable first aid for food environments with a hygienic, professional design.

Wallace Cameron BS 8599-1 (2019) Catering First Aid Kits are designed for food workplaces such as commercial kitchens, cafés, and hospitality settings, fully compliant with BS8599-1:2019+A1:2026.

They include blue metal detectable plasters, which are highly visible and contain a metal strip for detection systems, helping maintain food safety standards.

Housed in a durable, wall-mountable Mezzo box, the kit keeps contents organised, protected, and easy to access while maintaining a clean appearance.

Wallace Cameron HSE Catering First Aid Kits in Adulto Box

The Wallace Cameron Catering First Aid Kit in Adulto Box is designed for use in food handling environments such as commercial kitchens, restaurants, food production areas and hospitality settings. Fully compliant with HSE regulations, it contains components selected to support both hygiene and effective first aid response.

A key feature of the kit is the inclusion of blue metal detectable plasters, replacing standard washproof plasters. These are brightly coloured for clear visibility and include an embedded metal strip, allowing them to be identified by metal detection systems, an important requirement in food preparation environments.

Housed in a sleek, wall mountable Adulto box, the kit combines practicality with a clean, professional appearance while ensuring contents are easily accessible in an emergency.

Wallace Cameron HSE Catering First Aid Kits in Mezzo Box

Practical first aid for food environments with a clean, professional finish.

The Wallace Cameron Catering First Aid Kit in Mezzo Box is designed for food handling workplaces such as commercial kitchens, cafés, food production areas, and hospitality settings. Compliant with Health and Safety Executive requirements, it provides essential supplies suited to hygienic environments.

A key feature is blue metal detectable plasters instead of standard washproof plasters. These are highly visible and include an embedded metal strip, allowing detection systems to identify them and support food safety processes.

The durable, wall-mountable Mezzo box keeps the kit accessible while protecting and organising contents, maintaining a tidy, professional appearance.

Wallace Cameron Catering First Aid Station Including 20 Person HSE Catering First Aid Kit and Plaster Dispenser

A complete and accessible first aid point for food handling environments.

The Wallace Cameron Catering First Aid Station combines a stocked first aid kit with an easy-access plaster dispenser, allowing quick treatment of minor injuries while maintaining high hygiene standards. It is designed for kitchens, cafés, food production areas, and other catering settings.

It includes blue metal detectable plasters and other carefully selected items suited to food environments. The plasters are highly visible and contain an embedded metal strip to support food safety processes.

Housed in a compact, clearly visible unit, the station is wall mountable for quick access. The integrated dispenser lets users take plasters without opening the main kit, helping maintain hygiene and organisation.

A practical solution for catering environments requiring reliable, easy-to-locate first aid provision.

Wallace Cameron Catering First Aid Kit in Piccolo Box

Compact and practical first aid for food handling environments.

The Wallace Cameron Catering First Aid Kit in Piccolo Box is designed for use in kitchens, restaurants and food preparation areas. It provides essential first aid supplies to help manage common injuries such as cuts, burns and grazes in fast paced catering settings.

A key feature of the kit is the inclusion of blue metal detectable plasters, supporting food safety by ensuring visibility and detectability within food production environments.

The compact Piccolo box is easy to store in busy workspaces while remaining readily accessible when needed. Its portable design makes it ideal for smaller kitchens or areas where space is limited.

A reliable, easy to manage solution for catering teams requiring effective first aid provision that supports both safety and hygiene.

Defibrillators and Resuscitation

Lifeaz Fully-Automatic AED

Affordable, connected AED for home and workplace safety.

The Lifeaz Clark Pro Fully Automatic 4G Connected Defibrillator is a compact, easy to use AED designed for both business and home environments. Ideal for individuals at higher risk of sudden cardiac arrest or in workplaces with 5 or more employees, it provides reliable support when it matters most.

Weighing only 1.3kg, the device features an integrated handle and universal pads suitable for both adults and children. Switching between modes is simple, enabling quick and confident use in an emergency.

With built in 4G connectivity, the AED enables remote monitoring via a free app. It performs daily self checks, sends status alerts and allows remote software updates. The device is also geolocatable for added security.

Supplied with a wall bracket, AED prep kit and information poster.

Device warranty: 7 years
Battery Standby: 4 years
Pad shelf life: 2.5 years

Product code - LIFEAZ

Smarty Saver AED

Intuitive and reliable AED for workplaces and public spaces.

The Smarty Saver AED range includes both semi automatic and fully automatic models, designed for ease of use in a wide range of environments including workplaces with 5 or more employees and public areas. With clear audio and visual prompts, the device guides the user through each step of the rescue process, supporting confident use in an emergency.

Preconnected pads are suitable for both adults and children, removing the need for pad changes and helping save valuable time. The simple, stress-free interface ensures the device can be used quickly, even by those with minimal training.

Regular self checks and a durable design ensure the unit is always rescue ready. Status LEDs allow quick visual checks without removing the device from its case.

Device warranty: 7 years
Battery standby: 4 years
Pad shelf life: 4 years

Product code - Semi-Automatic SM1B1001

ARKY x Wallace Cameron Outdoor AED Cabinet

Secure and weather resistant storage for outdoor AED's.

The ARKY x Wallace Cameron Outdoor AED Cabinet is designed to protect defibrillators in all weather conditions, making it ideal for public spaces, workplaces and high traffic outdoor areas. Constructed from durable high impact polystyrene, it is fully waterproof, dust resistant and certified to IP55 standards for reliable outdoor protection.

Available in both heated and non heated versions, the cabinet can be selected to suit different environments. The heated option helps maintain a stable internal temperature in colder conditions, ensuring the AED remains ready for use year round.

For added security, the cabinet is fitted with an audible alarm. It supports safe, visible and accessible defibrillator storage, helping ensure lifesaving equipment is always protected and ready when needed.

Product code - Without Heating - 60212
Product code - With Heating - 60213

Smarty Saver Lockable Indoor Cabinet

The Smarty Saver Indoor AED Cabinet is designed to protect a defibrillator while ensuring it remains easy to access in an emergency. Suitable for a wide range of indoor environments, it helps safeguard the device from unauthorised access or tampering while keeping it clearly visible and ready for use.

With a lockable design, the cabinet provides added security without compromising accessibility when needed. It supports a quick response by keeping the AED in a dedicated, easy to locate position.

Available in both alarmed and non alarmed versions, the cabinet can be selected to suit different security requirements. The alarmed option provides an additional level of protection by alerting when the cabinet is opened.

A practical solution for maintaining safe, secure and accessible defibrillator storage indoors.

Product code - Without Alarm - SAVC0912
Product code - With Alarm - SAVC0961

Smarty Saver Wall Mount Bracket

The Smarty Saver Stainless Steel Wall Bracket is designed to securely hold Smarty Saver AED models, ensuring they are clearly visible and easy to access in an emergency. Its open design allows for rapid retrieval of the device, helping to minimise response time in critical situations.

Manufactured from stainless steel, the bracket offers strength and durability, making it suitable for a range of indoor environments. It provides a simple and effective storage solution while keeping the defibrillator ready for immediate use.

Ideal for workplaces, public areas and community spaces, this bracket supports safe and accessible AED placement.

Product code - SMTC1093

Blue Dot AED Preparation Kit

The Blue Dot AED Preparation Kit includes all the key items needed to quickly and hygienically prepare a casualty, helping minimise delays during an emergency. Contents typically include a razor, scissors, gloves, wipes, gauze and a face shield. Supplied in a compact pouch, it's easy to store alongside an AED for fast access, ideal for workplaces and public settings where readiness matters.

Product code - 30MMRK

Smarty Saver Disposable Battery

The Smarty Saver Battery delivers dependable performance for Smarty Saver AEDs, ensuring they are always ready in an emergency. It's quick and easy to replace, helping minimise downtime.

With up to 4 years of standby life, it offers long-lasting reliability, ideal for workplaces, public spaces and community settings where readiness is essential.

Product code - SMTC1033

Smarty Saver Universal Preconnected AED Pads

These single-use, pre-gelled, preconnected pads are ready instantly, saving vital time in emergencies. Suitable for both adults and children, they remove the need to switch pad types.

Compatible with Smarty Saver, Saver Plus and Saver Geo AEDs, they deliver dependable performance. With up to 4 years' shelf life, they help keep defibrillators ready when it matters most.

Product code - SMTC2001

AED Package Including Wall Bracket

Complete solution for accessible emergency response.

The AED Package Including Wall Bracket provides everything needed to equip a workplace, school or community space with a reliable public access defibrillator. Designed for ease of installation and use, it ensures the device is clearly visible and ready for immediate access in an emergency.

Supplied with a wall bracket and AED sign conforming to BS EN ISO 7010, the defibrillator can be securely mounted to maintain a dedicated and accessible location. This helps support a fast response and ensures the device is easy to locate when every second matters.

Available with either a semi automatic or fully automatic defibrillator, the package can be tailored to suit different user preferences and environments.

A practical and dependable solution for improving safety and preparedness in any setting.

Blue Dot CPR Pocket Face Mask in Case

Compact and reliable protection for emergency resuscitation.

Blue Dot CPR Pocket Face Masks are designed for first responders, providing a hygienic barrier during mouth to mouth resuscitation. They support safe and effective CPR while helping protect both the rescuer and casualty.

Lightweight and easy to carry, the mask is designed for quick deployment in emergency situations, ensuring it is always ready when needed. Its practical design allows for simple and effective use, even in high pressure scenarios.

Ideal for workplaces, public settings and emergency response kits, this pocket mask is an essential addition for anyone responsible for providing first aid.

Product code - 474628

Wallace Cameron Resuscitation Aid

Essential protection for safe and effective CPR.

The Wallace Cameron Resuscitation Aid is designed to support emergency responders and first aiders in delivering safe and effective mouth to mouth resuscitation. It provides a hygienic barrier between the rescuer and casualty, helping to reduce the risk of cross contamination during CPR.

Compact and easy to use, the aid can be quickly deployed in an emergency, ensuring minimal delay when immediate action is required. Its simple design supports confident use, even in high pressure situations.

Ideal for inclusion in first aid kits across workplaces, public settings and community environments, this resuscitation aid is a vital addition for improving safety and preparedness during emergency response.

Product code - 5001018

Wallace Cameron Resuscitation Belt Pouch

Convenient access to resuscitation equipment for first aiders.

Wallace Cameron Resuscitation Belt Pouches are designed to ensure first aiders always have essential protective equipment close to hand during emergency situations. They provide a practical solution for carrying resuscitation aids safely and hygienically.

Compact and easy to use, the pouch can be attached to a belt or key ring, allowing for quick access when immediate response is required. This ensures vital equipment is always within reach, helping to support effective CPR.

Ideal for workplaces, public environments and trained first aiders, these pouches offer a simple and reliable way to keep resuscitation equipment readily available at all times.

Product code - 1033001

Emergency *Response*

Emergency Response first aid products from Wallace Cameron, designed for rapid, effective response to serious injuries, with trauma dressings, tourniquets, and life-threatening injury care supplies suited to both low and high risk environments.

The Emergency Response range is built for high pressure situations where rapid intervention is critical. Products include bleed control kits with trauma dressings, and easy to use windlass tourniquets. Kits are organised organised for fast access and housed in robust, user friendly, bags
and range of kit boxes.

04
Emergency Response

Wallace Cameron First Response Kit in Green Bag

Rapid response first aid for events and active environments.

The Wallace Cameron First Response Kit is designed for situations where immediate treatment is required, such as sporting events, large gatherings and outdoor activities. It provides a comprehensive range of supplies to manage injuries quickly and effectively away from a fixed medical point.

Lightweight and portable, the kit is housed in a durable first aid bag with a carry handle and shoulder strap, allowing it to be transported easily to the casualty.

This ensures fast access to essential items when time is critical.

Ideal for event organisers, sports teams and first aiders, this kit offers a practical and reliable solution for delivering prompt care in dynamic environments.

Emergency Windlass Tourniquet

Rapid haemorrhage control in critical emergencies.

The Emergency Tourniquet quickly stops severe limb bleeding, helping stabilise casualties until medical help arrives.

It features a strong windlass system for controlled pressure, plus an adjustable, secure fit. Lightweight and compact, it's easy to carry and use, ideal for first aiders and emergency responders when every second counts.

Product code - 4999

Blue Dot Disposable Tourniquet 2.5cm x 45cm

Safe, hygienic control for clinical use.

The Blue Dot Disposable Tourniquet is single-use, helping reduce cross infection risk while providing reliable temporary blood flow restriction.

Made from latex and phthalate-free elastic, it offers comfort, flexibility and easy application. Lightweight and practical, it's ideal for healthcare, workplace and first aid settings.

Product code - 4997

Blue Dot Trauma Dressings

Effective pressure bandages for major bleeding.

Blue Dot Trauma Bandages help quickly control serious bleeding by applying direct pressure in emergencies.

Sterile and highly absorbent, they feature a non-adherent pad to protect the wound and a fast, secure fastening system for easy application. Ideal for trauma kits, workplaces and emergency response.

Product code - Medium - 100010
Product code - Large - 100011

Blue Dot Red Stretcher Blanket

Warmth, visibility and durability for emergency use.

The Red Stretcher Blanket is designed to provide reliable comfort and protection in emergency situations or outdoor environments. Made from soft yet durable materials, it offers warmth while remaining robust enough for regular use.

The bright red colour enhances visibility, making it easier to locate in urgent situations. Lightweight and easy to handle, it can be quickly deployed when needed.

Ideal for stretchers, and emergency response this blanket is a practical addition to first aid kits and emergency equipment, providing dependable support when it matters most.

Product code - 30RSB012

Wallace Cameron Emergency Thermal Blanket

Reliable heat retention for emergency situations.

Wallace Cameron Emergency Thermal Blankets are designed to retain over 90% of radiated body heat, helping to protect against cold and reduce the risk of shock. Suitable for use in all weather conditions, they provide essential thermal protection when it is needed most.

Lightweight and compact, the blanket can be easily stored in first aid kits, vehicles or outdoor equipment, ensuring it is always close to hand in an emergency. It can be quickly deployed to help maintain body temperature in challenging environments.

Ideal for outdoor activities, travel and emergency response, this blanket offers a practical and dependable solution for preserving warmth and supporting casualty care.

Product code - 4803009

Plasters

Wallace Cameron plasters and dispensers deliver a familiar and fast, hygienic treatment for minor cuts, scrapes, and abrasions.

Our Plasters selection covers everyday wound care with a focus on hygiene, convenience, and industry compliance. We supply single-use plaster dispensers for communal areas, refill packs for first aid cabinets, and specialist blue detectable plasters for food production and catering environments. Options include fabric, waterproof, and hypoallergenic plasters in multiple sizes. Plaster dispensers are designed for easy wall mounting and controlled dispensing to reduce waste and contamination.

05
First Aid Plasters

Microplast Washproof Plasters

Durable, washproof protection for everyday wound care.

Microplast Washproof Plasters are designed to protect minor wounds from water while maintaining comfort and flexibility. The strong, breathable material adapts to skin movement, ensuring a secure and comfortable fit during wear.

Each plaster features a non adherent, absorbent wound pad to help manage blood and exudate without sticking to the wound. Hypoallergenic and latex free, they are gentle on the skin and suitable for everyday use.

Individually wrapped for hygiene and convenience, these plasters are ideal for treating cuts, grazes and minor injuries. The conformable adhesive backing ensures a reliable hold, even in demanding conditions.

Compliant with Class I Medical Device standards and CE marked for quality assurance, they offer dependable performance and traceability.

Available in a variety of shapes and sizes.

Blue Dot Conforming Bandages

Secure and flexible support for dressing retention.

Blue Dot Conforming Bandages are designed to hold dressings firmly in place while providing comfortable support. Their soft, stretchable construction allows the bandage to conform easily to the body, ensuring a secure fit without restricting movement.

Lightweight and breathable, they offer excellent comfort during use, making them suitable for a range of first aid applications. The flexible design supports natural movement while maintaining reliable hold.

Ideal for workplaces, healthcare settings and general first aid kits, these bandages provide a practical solution for effective wound care.

Available in a range of sizes.

Product code - 5cm x 4.5m - 30BDC005
Product code - 7.5cm x 4.5m - 30BDC075
Product code - 10cm x 4.5m - 30BDC010

Blue Dot Cohesive Bandages

Self adherent support for effective injury management.

Blue Dot Cohesive Bandages are elastic, self adhering bandages designed to provide reliable support and compression. Ideal for treating strains, sprains and ligament injuries, they help stabilise the affected area while allowing controlled movement.

The cohesive material sticks to itself without adhering to skin or hair, ensuring comfortable use and easy removal. This makes application quick and secure, without the need for additional tapes or fasteners.

Flexible and lightweight, they offer a comfortable fit while maintaining consistent support.

Suitable for first aid kits, sports environments and clinical settings, these bandages provide a practical solution for injury support and compression therapy.

Product code - 6cm x 4m - 171
Product code - 8cm x 4m - 178

Blue Dot 2.5cm x 5m WOW Bandage

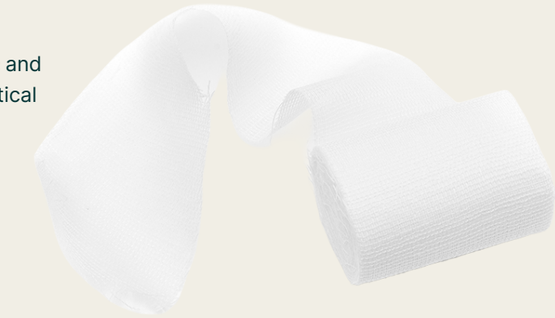

Secure fixation without constriction for sensitive applications.

Blue Dot WOW Bandages are designed for safely securing wound dressings and ET tubes in place. Their non elastic construction ensures they will not constrict the wound area, making them suitable for use where gentle yet reliable fixation is required.

Lightweight and easy to apply, they provide a secure hold while maintaining comfort for the patient. The design allows for effective support without compromising circulation or causing additional pressure.

Ideal for clinical settings, emergency care and first aid use, these bandages offer a practical solution for safe and controlled dressing and device fixation.

Product code - 30SDWOW25

Heat and Warming Spray 125ml

The 125ml Heat Spray is designed to provide fast, effective warming relief for rheumatic pain, muscular aches and strains. It helps ease discomfort and support recovery by delivering focused heat directly to the affected area. Ideal for use after exercise or for managing pre existing injuries, the spray can be applied quickly and easily to the skin without the need for additional application tools.

Its convenient format allows for targeted treatment, making it suitable for use at home, in the workplace or in sports environments. A practical solution for soothing muscle discomfort and supporting everyday recovery.

Product code - 30HSP125

Blue Dot Reusable Hot / Cold Pack

The Blue Dot Reusable Hot and Cold Pack provides effective relief from muscle aches, back pain, sinus issues and more, using either heat or cold depending on the user's needs.

Freeze for cooling relief to reduce swelling, or heat in the microwave for soothing warmth to ease tension and stiffness.

Durable and flexible, it conforms comfortably to the body, making it ideal for home, workplace or sports recovery use.

Product code - 30REUHC1

Hot and Cold Pack Cover 15.5cm x 30cm (Pack 50)

Hot and Cold Pack Covers provide a barrier between skin and therapy packs, helping reduce the risk of heat or freeze burns and improving safety during use.

Made from soft non-woven material, they are gentle on skin while helping reduce cross-contamination. Disposable and easy to use, they add comfort and hygiene for both clinical and personal settings.

Product code - COVM50FAW

Easy Ice Large Instant Ice Pack

Instant cold therapy for fast and effective injury relief.

The Easy Ice Large Instant Ice Pack provides immediate cooling relief for injuries, making it an essential addition to sports first aid kits. Designed for single use, it delivers on the spot treatment without the need for pre cooling, helping to reduce pain, swelling and discomfort quickly.

Its larger size allows for better coverage, making it ideal for wrapping around injuries or treating larger muscle groups. This makes it particularly useful for sports injuries, sprains and bruising.

Easy to activate and apply, it offers a practical and hygienic solution for use in fast paced environments such as pitch side care or physiotherapy settings.

A reliable and convenient option for rapid cold therapy when it is needed most.

Product code - 9986

Easy Ice Small Instant Ice Pack

Instant cold therapy in a compact, easy to use format.

The Easy Ice Small Instant Ice Pack provides immediate cooling relief for minor injuries, making it ideal for treating bruising, sprains, muscle injuries and headaches. It helps reduce swelling and inflammation while easing pain around affected areas.

Designed for convenience, the pack activates instantly without the need for pre cooling, allowing for quick and effective treatment wherever it is needed.

Its compact size makes it easy to store in first aid kits, bags or vehicles, ensuring it is always close to hand for on the spot use.

Single use and disposable, it offers a practical and hygienic solution for cold therapy in a wide range of environments.

Product code - 9987

Easy Ice Comfort Instant Ice Pack

The Easy Ice Comfort Ice Pack provides fast and effective cooling relief for injuries such as bruising, muscle strains and swelling. Designed to help reduce blood flow to the affected area, it supports pain relief and helps minimise inflammation.

Featuring a soft non woven outer cover, it is gentler on the skin compared to standard instant ice packs, improving comfort during application.

Easy to activate with no pre-cooling required, it delivers immediate treatment when and where it is needed. Its practical design makes it suitable for use by both medical professionals and general users.

Single use and disposable, it offers a convenient and hygienic solution for cold therapy, ideal for sports environments, workplaces and on the go first aid.

Product code - 30DIIP20

150ml Freeze and Cool Spray

Instant cooling relief for sports injuries on the go.

The 150ml Freeze and Cool Spray is designed to provide fast, targeted cooling for joint and muscle injuries. Ideal for use in sports settings, it helps relieve pain and reduce discomfort following strains, sprains and impact injuries.

Supplied in a compact can, it is easy to store in first aid kits, sports bags or medical kits, ensuring it is always available when needed. The spray format allows for quick and hygienic application directly to the affected area.

Suitable for pitch side use and active environments, it offers a practical solution for immediate injury management and on the spot relief.

Product code - 30FSP150

Wallace Cameron Assorted Blue Fingerstalls (Pack 10)

Wallace Cameron Fingerstalls are designed to safeguard wounds from further injury and contamination, making them suitable for use in hospitals, GP surgeries, first aid kits and healthcare settings.

Made from durable, high quality materials, they are easy to apply and provide a secure fit that stays in place during use. Their protective design helps shield the finger while still allowing comfortable movement.

Ideal for covering cuts, grazes and dressings on fingers, they offer a practical solution for maintaining hygiene and protection.

Available in a range of colours and quantities.

Product code - 2607005

Wallace Cameron Finger Bobs

Hygienic protection for fingers in catering environments.

Wallace Cameron Finger Bobs are designed to provide an additional layer of protection over plasters and dressings, helping to maintain high hygiene standards in food handling areas. Ideal for use in kitchens, food production and catering environments, they support contamination control during food preparation.

Their durable construction ensures reliable protection, while the comfortable fit allows for ease of movement during use. Easy to apply, they help keep dressings securely covered and protected.

A practical solution for maintaining cleanliness and safety in busy food environments.

Blue Dot Sterile Gauze Swabs (Pack 5)

Versatile and essential for effective wound care.

Blue Dot Sterile Gauze Swabs are a fundamental component of any first aid kit, offering multiple uses across a range of medical situations. They can be used for padding, protecting wounds, managing blood and fluid, and cleaning or preparing the affected area.

Suitable for applying antiseptics or creams, they also function effectively as a primary or secondary dressing when required. Their soft and absorbent material supports gentle and efficient wound care.

Individually sterile for hygiene and convenience, they are ready for immediate use in both routine and emergency situations.

Product code - 5cm x 5cm - 85430
Product code - 7.5cm x 7.5cm - 85431
Product code - 10cm x 10cm - 85432

Blue Dot Non-Sterile Gauze Swabs (Pack 100)

Practical and absorbent swabs for everyday wound care.

Blue Dot Non Sterile Gauze Swabs are ideal for cleaning and mopping wounds, making them a useful addition to both workplace and home first aid kits. Their soft, absorbent material supports effective cleansing and preparation of the affected area.

Suitable for general first aid use, they can also be used for applying antiseptics or creams, offering versatility across a range of minor injuries.

Supplied in packs of 100, they provide a convenient and long lasting solution for regular use.

Available in a range of sizes.

Product code - 5cm x 5cm - 30FSP150
Product code - 7.5cm x 7.5cm - 1545
Product code - 10cm x 10cm - 1544

Wallace Cameron Microporous Tapes

Gentle, breathable tape for secure dressing support.

Wallace Cameron Microporous Tape holds dressings in place while allowing airflow to support healing and reduce irritation.

Soft, with easy application and removal, it offers reliable fixation for first aid, healthcare and home use. Available in various sizes.

Product code - 1.25cm x 5m - 2005001
Product code - 2.5cm x 5m - 2005015

Wallace Cameron Washproof tape 2.5cm x 5m

Durable, water-resistant tape for secure dressing support.

Wallace Cameron Washproof Tape holds dressings firmly in place, even in moist conditions.

Flexible and breathable, it offers comfort and reliable adhesion, ideal for settings exposed to moisture.

Product code - 2002003

Blue Dot Zinc Oxide Tapes

Strong, reliable support for sports and injury care.

Blue Dot Zinc Oxide Tape is a non-stretch cotton tape with firm adhesion, ideal for strapping, stabilisation and injury prevention.

Easy to tear by hand and highly durable, it provides secure support during activity, suitable for sports, first aid and clinical use.

Product code - 5cm x 10m (Pack 12) - 204443
Product code - 2.5cm x 10m (Single) - 2.5cm x 10m (Single)

Blue Dot Fabric Strappings 2.5cm x 4.5m

Comfortable, secure support for strapping and injury care.

Blue Dot Fabric Strapping Tape is soft, breathable and gentle on skin, with reliable adhesion for extended wear.

Flexible and durable, it stays in place during movement, ideal for sports, clinical use and first aid. Available in single rolls or boxes.

Product code - Single - 85502
Product code - Pack 12 - 85503

Wallace Cameron Fabric Tape 2.5cm x 5m

Strong, flexible tape for reliable wound care.

Wallace Cameron Fabric Tape secures dressings with dependable adhesion while remaining gentle and comfortable on the skin.

Easy to tear and apply, it conforms to body contours for versatile use—ideal for workplaces, healthcare and everyday first aid. Available in various sizes.

Product code - 2001011

Wallace Cameron Blue Detectable Tape 2.5cm x 5m

Food-safe fixation for catering environments.

Wallace Cameron Blue Detectable Tape is designed for food preparation areas, with a bright blue colour for high visibility.

It includes a metal-detectable strip for added contamination control and provides secure adhesion even in moist conditions. Ideal for kitchens, food production and catering settings.

Product code - 2003001

Blue Dot Blue Detectable Tape 2.5cm x 5m

Food-safe tape for secure dressing support.

Blue Dot Blue Detectable Tape is designed for food handling environments, with a highly visible blue finish for easy identification.

It features a skin-friendly adhesive for secure, comfortable fixation of dressings or devices and comes on a convenient spool for easy use. Ideal for catering settings and use with detectable plasters.

Product code - 30BTCS25

Blue Dot Elastic Adhesive Bandages (EAB)

Versatile support for movement and injury care.

Elastic Adhesive Bandages provide flexible, secure support for joints and soft tissue injuries, ideal for sports and first aid use. Easy to tear and apply, they offer quick, convenient fixation without scissors. Suitable for injury prevention and support, available in a range of sizes.

Stericlens Wound Cleansing Sprays

Precise and hygienic wound cleansing solution.

Stericlens® is a versatile topical irrigation system designed for effective wound cleansing. Its narrow spray allows for targeted application, helping to remove debris and bacteria without the need to touch the wound.

Engineered to remain sterile after use, it offers a reliable and longer lasting alternative to traditional wound cleansing products while helping to reduce waste. The controlled spray ensures thorough irrigation while maintaining a safe distance from the affected area.

Simple to use, it provides an efficient and hygienic way to cleanse wounds in both clinical and first aid settings.

Available in 100ml and 240ml sizes.

Product code - 240ml - 300720
Product code - 100ml - 300721

Irripod 20ml Sodium Chloride Irrigation Pods 0.9% (Box 25)

Convenient and precise irrigation for wound and eye care.

Irripod® 20ml Pods contain a preservative free, sterile isotonic sodium chloride solution, designed for the topical irrigation and cleansing of wounds, burns and eyes. The 0.9% sodium chloride formulation provides gentle and effective cleansing.

Each pod features a twist open design, allowing for controlled and hygienic application. This makes them ideal for precise directional irrigation or dispensing gentle drops directly to the affected area.

Suitable for use in first aid, clinical and workplace settings, they offer a practical and cost effective solution for wound and ocular care.

Supplied in a pack of 25 individual 20ml pods, they are easy to store and use when needed.

Product code - 4002

Burn *Care*

Wallace Cameron Burn Care Kits and Burn Gels provide fast, effective treatment for minor burns and scalds.

The Burn Care collection focuses on immediate cooling and protection to reduce tissue damage and pain. Products include sterile burn dressings, cooling gels, hydrogel burn pads, and complete burn kits for kitchens, workshops, and industrial settings, where the risk of burns is high.

07
Burn Care

Wallace Cameron Burns First Aid Kit in Adulto Box

Comprehensive care for burns and scald injuries.

The Wallace Cameron Burns First Aid Kit in Adulto Box is designed to provide effective treatment for burns, scalds and sunburn. It contains a selection of specialised products to support immediate response and ongoing care.

Formulated to cool, soothe and moisturise the affected area, the contents help minimise discomfort and reduce the risk of further trauma. The kit also supports infection prevention, promoting a safer healing environment.

Housed in a durable Adulto box, the contents are organised and easy to access in an emergency, ensuring quick and efficient treatment when needed.

Ideal for workplaces, kitchens and high-risk environments, this kit offers a reliable solution for managing burn injuries.

Blue Dot H-F Antidote Gel First Aid Kits

Specialist protection for hydrofluoric acid exposure.

The Blue Dot H-F Antidote Gel First Aid Kits are designed for environments where there is a risk of exposure to hydrofluoric acid or other hazardous chemicals. They provide a targeted solution for managing chemical burns quickly and effectively.

Following initial irrigation with water, the gel can be applied to the affected area to help neutralise fluoride ions, reducing pain and limiting further tissue and bone damage. The formulation supports rapid response in critical situations, helping to protect the burn site from ongoing chemical injury.

Trusted for use in industrial and laboratory settings, the gel offers immediate support while medical attention is sought.

Available with or without a chemical eyewash option, allowing the kit to be tailored to different risk environments.

Product code - Essential - 85568

Burn Kool 30cm x 40cm Face Mask Burn Dressing

The Burn Kool Face Mask is designed to provide immediate soothing and protection for facial burns following initial cooling. It helps reduce pain, limit further tissue damage and protect the affected area from contamination.

Pre-moistened with a cooling gel, the mask maintains a moist environment to support the healing process while delivering effective relief. Its contoured design is shaped specifically for the face, with holes for the eyes and mouth, helping the patient remain as comfortable as possible.

Ideal for inclusion in first aid kits across kitchens, catering environments, workshops and other high-risk settings, it offers a practical solution for managing facial burns quickly and effectively.

Product code - 2207005

Blue Dot 25g H-F Antidote Gel

H-F Antidote Gel (calcium gluconate 2.5%) by Blue Dot is designed for environments where there is a risk of contact with hydrofluoric acid. It provides fast acting support to help relieve pain and reduce the risk of deep tissue and bone damage following exposure.

After initial irrigation with cold running water, the gel should be applied liberally to the affected area and continuously massaged using appropriate protective equipment. The active ingredients work to neutralise fluoride ions, helping to limit ongoing chemical damage.

Trusted for use in industrial and laboratory settings, it offers immediate treatment in critical situations while medical attention is sought. Available as single tubes or in packs of 12, making it suitable for individual use or workplace stocking.

Product code - Pack 12 - 86164
Product code - Single - 90889

Burn Kool Burn Gel Bottles

Burn Kool Burn Gel Bottles are designed for smooth and controlled application of burn gel directly to the affected area. They provide a convenient way to deliver cooling relief, helping to soothe pain and support immediate treatment of burns, scalds and sunburn.

The squeeze bottle design allows for precise and effortless use, ensuring even coverage across the injury without unnecessary handling.

Ideal for first aid kits in workplaces, kitchens and general environments, they offer a practical solution for quick and effective burn care.

Available in 50ml and 120ml squeeze bottles.

Product code - 50ml - 900007
Product code - 120ml - 2207010

Burn Kool 3.5g Burn Gel

Fast, convenient relief for minor burn injuries.

The Burn Kool 3.5g Burn Gel provides quick and effective treatment for small burns, scalds and sunburn. Designed to cool and soothe the affected area, it helps reduce discomfort and support early stage care.

Supplied in compact sachets, it is easy to store in first aid kits, travel bags or kitchen cupboards, ensuring it is always close to hand when needed.

Ideal for both workplaces and households, these sachets offer a practical and hygienic solution for managing minor burn injuries quickly and efficiently.

Product code - 900006

Burn Kool 3.5g Pull ‘N’ Open Burn Gel (Box 6 x Clip 4)

Fast access burn treatment for high-use environments.

Pull ‘N’ Open Burn Gel is designed for use with Wallace Cameron Pull ‘N’ Open Dispensers, providing quick and convenient access to burn care when it is needed most. Each clip contains 4 burn gel sachets, allowing for easy dispensing in fast paced settings.

Ideal for environments where burns may occur frequently, such as kitchens and workplaces, it ensures treatment is always readily available. The dispenser compatible design helps maintain organisation and supports a rapid response to minor burn injuries.

A practical solution for keeping burn treatment accessible, hygienic and easy to use.

Product code - 1035056

First Aid
Eye care

Wallace Cameron Emergency Eye Care First Aid Kits and Eye Washes provide fast, effective treatment for workplace eye injuries.

The range includes sterile eye wash solutions, single-application pods, eye wash stations, bottles and complete emergency eye care kits that combine irrigation and protection. Eye wash stations are available in portable and fixed formats. Kits include clear instructions for immediate irrigation, foreign body removal guidance to help employers meet their duty of care for employees exposed to chemical, particulate, or splash hazards.

08
Eye First Aid

Blue Dot Chemical Eye Wash First Aid Kit

Effective eye care for chemical exposure emergencies.

The Blue Dot Chemical Eye Wash First Aid Kit is designed to provide a rapid and reliable response to chemical eye incidents. It contains essential items to support immediate and thorough eye irrigation and protection.

The kit includes two pH neutral eye wash bottles, eye pad dressings and eye wash pods, offering a complete solution for cleansing and covering the affected area.

These components work together to help reduce irritation and protect the eye following exposure.

Compact and easy to store, the kit ensures it is readily available when needed, supporting quick action in emergency situations.

Ideal for laboratories, workplaces and environments where chemical exposure is a risk, it provides dependable eye care when it matters most.

Wallace Cameron One Touch Easy Access Dispenser with Eye Wash Pods and Eye Pads

Fast and convenient access to essential eye care.

Wallace Cameron One Touch Easy Access Dispensers are designed for wall mounting, ensuring eye wash pods and eye pads are always clearly visible and easy to reach in an emergency.

The one touch design allows for quick dispensing, while the twist open mechanism ensures eye wash pods are immediately ready for use. This helps support a rapid response when treating eye injuries.

Ideal for workplaces where eye hazards may be present, the dispenser keeps essential items organised, protected and readily accessible.

A practical solution for improving response time and maintaining efficient eye care provision.

Product code - Station- 2401025
Product code - Refill- 2405012

Wallace Cameron 20ml Eye Wash Pods (Box 25)

Wallace Cameron Eye Wash Pods help cleanse and irrigate the eye, removing debris and reducing irritation from minor injuries. Compact and easy to use, they are ideal for topping up first aid kits and ensuring fast access to eye care in workplaces and other environments.

Product code - 2405006

Blue Dot 250ml Eye Wash Bottle

Blue Dot Eyewash Solution (0.9% sodium chloride) helps cleanse and flush contaminants from minor eye injuries. Easy to use with controlled flow, it supports quick first aid response. Suitable for eyewash stations and kits.

Product code - 2144

Blue Dot 500ml Chemical Eye Wash Bottle

Blue Dot Chemical Eye Wash is designed for high-risk environments, providing emergency rinsing after exposure to hazardous substances. Its phosphate buffer solution helps neutralise chemicals, reducing irritation and further damage. Easy to use for rapid response, it's ideal for chemical eyewash kits and workplace safety.

Product code - 2146

Wallace Cameron 500ml Eye Wash Bottles

Wallace Cameron 500ml Eye Wash Bottles help maintain compliant eye care and refill eyewash kits. They provide a steady flow to rinse debris and ease irritation, and are available in standard and Twist 'N' Open options for quick use.

Wallace Cameron First Aid and Eye Wash Station

The Wallace Cameron First Aid and Eye Wash Station is designed to provide a central, accessible point for both first aid and eye care. Compatible with Mezzo first aid boxes, it offers a practical and organised solution for workplace safety.

Featuring a One Touch Easy Access Eye Wash Pod Dispenser, it allows for quick and hygienic dispensing of eye wash pods, supporting immediate treatment in emergency situations.

Ideal for medium-risk environments where eye injuries or contamination may occur, the station helps ensure essential supplies are clearly visible and easy to access.

A convenient and effective solution for maintaining efficient first aid and eye care provision in the workplace.

Product code - 4210165

Wallace Cameron Double Eye Wash Holder

Simple and secure storage for eye wash bottles.

Wallace Cameron Double Eye Wash Holder is designed to hold two 500ml eye wash bottles, keeping them organised and easy to access in emergency situations.

Its practical design ensures bottles are clearly visible and readily available when needed, supporting a quick response to eye injuries.

Suitable for a range of workplace environments, it provides a convenient solution for maintaining effective eye care provision.

Holder only, bottles not included.

Product code - 2401001

Infection *Control*

Wallace Cameron Infection Control delivers professional grade hygiene, disinfection, and containment solutions to protect workplaces from cross contamination, biohazards, and sharps risks.

Our Infection Control range covers the full spectrum of workplace hygiene and contamination management. Products include surface disinfectants, clinical wipes, sharps containers, spill kits, and PPE designed for infection control and prevention. Sharps management products meet regulatory standards for safe disposal, and spill kits include absorbents and neutralisers for biological or chemical incidents.

Super Absorbent Granules

Fast, effective containment for biohazard spills.

Biosafe Absorbent Granules quickly absorb and solidify bodily fluids, making spills easier and safer to handle and remove.

This helps limit contamination and supports controlled, hygienic clean-up.

The solidified material can be easily collected with a scoop and scraper, then disposed of in a biohazard bag.

Ideal for workplaces, healthcare settings, and public environments, they offer a practical, reliable solution for biohazard incidents.

Product code - 10g - 51070
Product code - 100g - 51071

Absorbent Granules

Fast, effective containment for spillages.

Absorbent Granules quickly contain and manage liquid spills, absorbing and solidifying them for easier, safer clean-up.

The solid material can then be collected with a scoop and scraper and disposed of in a biohazard bag, helping support hygienic handling and reduce contamination risk.

Ideal for workplaces, healthcare settings, and public environments, they offer a practical solution for spill management.

Available in a range of sizes to suit different needs.

Cromessol C3 Professional A.D.D Blend C Disinfectant (Box 2)

Effective disinfection and odour control for hygiene critical areas.

Cromessol A.D.D. Blend C Disinfectant is designed for environments where both cleaning and deodorising are essential. It provides effective disinfection while helping to eliminate and control unpleasant odours.

Formulated with a powerful bactericide, it supports thorough sanitation of contaminated areas, making it suitable for use in kennels, catteries, washrooms and other hygiene sensitive spaces.

The added fragrance delivers a strong yet pleasant scent, helping to mask offensive odours and leave areas smelling fresh after use.

A practical solution for maintaining cleanliness and improving environmental hygiene in a range of professional and public settings.

Product code - 7001002

Biohazard Scoop and Scraper

Safe and controlled removal of biohazard materials.

The Biohazard Scoop and Scraper is designed for the safe collection and removal of solidified body fluid spills after the application of absorbent granules. It supports a hygienic clean up process while helping to reduce direct contact with contaminated materials.

Easy to use, the scoop and scraper allow for efficient handling and transfer of waste into appropriate disposal bags, supporting safe and controlled disposal.

Ideal for workplaces, healthcare settings and public environments, it provides a practical tool for maintaining hygiene and safety during biohazard clean up.

Product code - 51083

5” Plastic Tweezers

Safe handling for biohazard materials.

5-inch Plastic Tweezers allow safe handling of contaminated items, reducing direct contact during clean-up.

With serrated tips for a secure grip, they offer precise, controlled use and are lightweight and easy to handle.

Ideal for workplaces, healthcare settings, and biohazard kits, they help maintain hygiene and safety during clean-up.

Product code - 51086

1000ml Vomit Bowls

Vomit Bowls are single-use and provide a simple, sanitary way to manage unexpected situations, with a 1000ml capacity for safe containment.

Lightweight and easy to use, they help maintain hygiene and can be quickly disposed of after use, reducing contamination risk.

Ideal for hospitals, clinics, schools, workplaces, and home use, they offer a practical solution for maintaining comfort and cleanliness.

Product code - 559

Vomit Bag (Pack 25)

Blue Dot Vomit Bags provide a quick, reliable solution for managing sickness, with a 1000ml capacity for effective containment.

Easy to use, they are suitable for travel, medical settings, schools, and biohazard disposal.

Single-use design allows safe disposal, helping maintain cleanliness and reduce contamination risk.

A practical option for handling unexpected situations efficiently.

Product code - 206123

Furniture and *first aid room*

Durable medical furniture and evacuation equipment engineered for first aid rooms and emergency response, including treatment couches, screens, evacuation chairs, and stretchers.

The Furniture category supplies robust, ergonomically designed items for large workplaces, first aid rooms and emergency handling. Offerings include treatment couches with adjustable heights, privacy screens, first aid cabinets, and seating designed for clinical use. Evacuation chairs, stretchers, and patient transfer aids are available for safe movement of casualties in multistorey buildings and public venues. Our range has been selected for its durability, ease of cleaning, and compliance with health and safety guidance.

10
Furniture

Evacuation Chair including Bracket and Cover

Essential for emergency preparedness and safe evacuation.

The Wallace Cameron Evacuation Chair supports the safe evacuation of individuals unable to use stairs during fires, power outages, or other emergencies, helping meet duty of care and accessibility requirements.

Made from lightweight aluminium alloy, it features an ergonomic design for comfort and control during descent. A protective cover keeps it clean, and a wall bracket ensures easy access when needed.

Ideal for multi-storey buildings in offices, education, healthcare, and retail.

Product code - 7000080

Treatment Couch including Couch Roll Holder

Durable, practical treatment couch for first aid rooms.

The Treatment Couch with Couch Roll Holder provides a stable, comfortable surface for patient care in medical and first aid environments, supporting up to 180kg.

With a faux leather finish, it's easy to clean and maintain for high hygiene standards, while the integrated roll holder allows quick preparation between patients.

Ideal for workplaces, clinics, and first aid rooms, it offers a reliable solution for treatment and examination needs.

Product code - 7000081

Couch Step

Safe and stable access to treatment couches.

The Wallace Cameron Couch Step is a practical support aid, designed to assist individuals when accessing a treatment couch in first aid rooms, clinics, or healthcare environments. Ideal for promoting safe patient handling, this step provides a stable platform to help reduce the risk of slips or strain during medical assessments or procedures.

Constructed from durable iron with a wipe-clean PVC surface, the step is designed for long-term use in professional settings. Suitable for environments where hygiene, stability, and accessibility are key considerations.

Product code - 7000082

Black Portable Couch

Portable and versatile treatment couch for flexible use.

The Black Portable Couch is designed for practitioners working across multiple locations, offering a convenient and reliable treatment solution. With a maximum weight capacity of 150kg, it provides sturdy support for a wide range of patients.

The adjustable height allows the couch to be tailored for different treatments and user preferences, ensuring comfort and practicality during use. A removable headrest adds extra support, helping to enhance patient comfort.

Lightweight and easy to transport, it is ideal for mobile therapists, clinics and temporary treatment setups.

A practical and dependable option for delivering professional care wherever it is needed.

Product code - 7000083

Stainless Steel Medical Screens including Removable Curtains

Durable, hygienic privacy solutions for clinical environments.

Our Stainless Steel Medical Screens are designed to support patient dignity and privacy in medical and first aid settings. Constructed from robust stainless steel, these screens are ideal for hospitals, GP surgeries, clinics, and workplace first aid rooms.

Featuring removable, waterproof curtains, the screens are wipe-clean and easy to maintain, making them an excellent choice for infection-controlled environments. The foldable frame allows for flexible positioning and space-saving storage.

Product code - 7000085

Lightweight Folding Wheelchair

Reliable mobility for patient transport and emergency preparedness.

The Wallace Cameron Lightweight Folding Wheelchair offers a practical, self-propelled mobility solution designed for medical rooms, reception areas, transport hubs, and emergency planning. Its lightweight, foldable frame allows for easy storage and swift deployment, ideal for workplaces, healthcare facilities, and public buildings requiring accessible support on-site.

Made from electroplated iron for durability and equipped with wipe-clean surfaces, this wheelchair supports infection control protocols and safe usage across various environments. Suitable for a wide range of users, with a maximum load of 159kg.

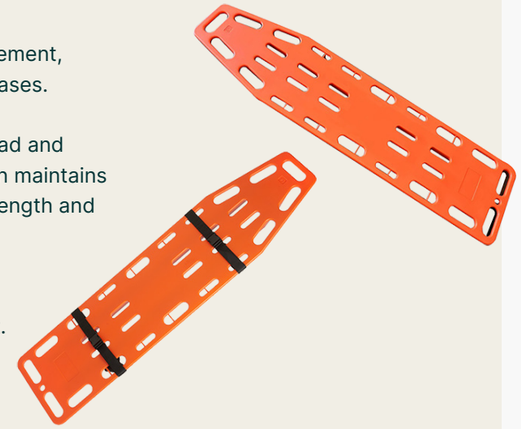

Product code - 7000086

Orange Spinal Board with Strap

This spinal board immobilises patients during movement, helping reduce further injury in suspected spinal cases.

Compatible with head immobilisers, it supports head and neck stabilisation, while its rigid HDPE construction maintains alignment. With a 159kg load capacity, it offers strength and easy handling.

Ideal for emergency services, workplaces, and first aid settings, it provides reliable safe transport.

Product code - 7000087

Orange Folding Aluminium Stretcher

Designed for reliable patient transport, it combines durability with easy handling. It folds both horizontally and vertically for compact storage, making it ideal for emergency and space-limited environments.

The bright orange design improves visibility for quick access when needed. Easy to clean and with a 159kg load capacity, it offers dependable performance and hygiene support.

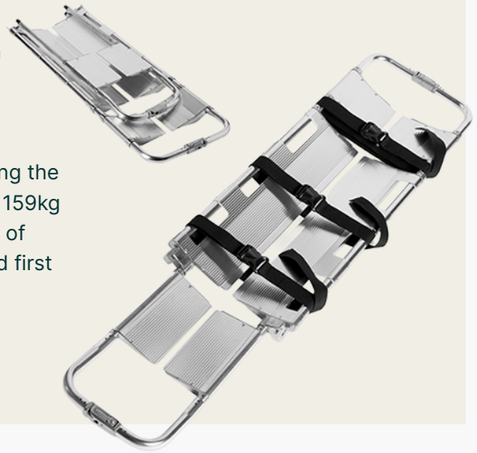

Product code - 7000088

Two-Piece Medical Rescue Stretcher

This stretcher provides adjustable support to maintain spinal alignment during transport, helping ensure safe handling in suspected spinal injuries.

Its split design allows X-rays to be taken without moving the patient, reducing risk and improving efficiency. With a 159kg load capacity, it is strong and reliable for a wide range of patients. Ideal for emergency services, healthcare, and first aid settings, it offers safe, controlled transport.

Product code - 7000089

Large First Aid Board

Comprehensive first aid organisation for high-risk workplaces.

The Large First Aid Board supports workplace safety and HSE compliance, providing a central point for essential emergency equipment including AEDs, first aid, eye wash, burns, and biohazard kits.

It also features a mirror, whiteboard pen holder, and document holder to keep key information accessible.

A What3Words section helps emergency services locate the site quickly.

Compatible with all wall-mountable boxes for a custom setup. Kits and accident report books sold separately.

Product code - FASLARGE

Medium First Aid Board

The Medium First Aid Board supports HSE compliance in environments where a defibrillator is not required, providing a central space for essential equipment including first aid, eye wash, burns, and biohazard kits.

It also includes a mirror, whiteboard pen holder, and document holder to keep key information accessible.

A What3Words section helps emergency services locate the site quickly.

Compatible with all wall-mountable Crest Medical boxes for a customised setup. Kits and accident report books sold separately.

Product code - FASMEDIUM

Small First Aid Board

The Small First Aid Board supports HSE compliance in low to medium risk environments, providing organised access to essential equipment including first aid, eye wash, and an accident report book. It includes key features such as a mirror, whiteboard pen holder, document holder, and What3Words section for faster emergency location. Compatible with all wall-mountable boxes. Kits and accident report books sold separately.

Product code - FASSMALL

Premium Health and Safety Board

The Premium Health and Safety Board provides a central space for key documentation and first aid resources, including policies, certificates, evacuation plans, and accident reporting, helping support HSE compliance. It includes document holders and a whiteboard pen for clear, easy updates.

A What3Words section helps emergency services locate the site quickly. Compatible with all wall-mountable kits. Kits, reports, and posters sold separately.

Product code - HSBPREM

Standard Health and Safety Board

The Standard Health and Safety Board supports HSE requirements by providing a central space for key documents such as policies, certificates, accident reports, and evacuation plans, with document holders and a whiteboard pen for easy updates.

A What3Words section helps emergency services locate the site quickly. Ideal for all workplaces, it improves organisation, visibility, and compliance. Kits, reports, and posters sold separately.

Medical Consumables

Wallace Cameron Sterile Saline Wipes

Convenient and effective cleansing for first aid and clinical use.

Wallace Cameron Steriprep Wipes are designed for cleaning skin prior to treatment, helping to reduce the risk of infection.

Individually wrapped for convenience, each wipe is ready for immediate use, supporting quick and efficient application in both routine and emergency situations.

Available in multiple pack sizes, they offer a practical option for maintaining stock in workplaces, healthcare settings and first aid kits.

Product code - Pack 10 - 1601026
Product code - Pack 20 - 1601028
Product code - Box 100 - 1601002

Wallace Cameron Disinfectant Wipes (Box 72)

Effective cleaning and disinfection for everyday hygiene.

Wallace Cameron Disinfectant Wipes are designed to quickly clean and sanitise surfaces, helping to reduce the spread of bacteria and viruses. Easy to use, they provide a convenient solution for maintaining hygiene in a wide range of environments.

Suitable for use on frequently touched surfaces, they support effective infection control in workplaces, healthcare settings and public areas.

A practical addition to cleaning and first aid supplies, these wipes help maintain a clean, safe and hygienic environment.

Product code - 1601011

Wallace Cameron One Touch Easy Access Saline Wipes Dispenser

Wallace Cameron One Touch Easy Access Dispensers are designed for wall mounting, providing fast and convenient access to plasters when needed. With a simple press, the dispenser opens to allow easy retrieval, supporting a quick response to minor injuries.

The pull and open mechanism ensures wipes are ready for immediate use, helping to streamline application while maintaining hygiene by reducing unnecessary handling.

Ideal for workplaces, healthcare settings and high traffic areas, the dispenser keeps plasters organised, visible and easily accessible. A practical solution for improving efficiency and ensuring first aid supplies are always within reach.

Product code - 1601022

Wallace Cameron Easy Access Saline Wipes Refill (Box 96)

These clipped saline wipes are designed specifically for use with Wallace Cameron One Touch Easy Access Saline Wipes Dispensers, ensuring wipes are always ready for immediate use.

Supplied on clips, they allow for quick and controlled dispensing, reducing handling and supporting hygienic use in busy environments.

Ideal for cleaning wounds and preparing the skin, they provide a practical solution for maintaining stocked and efficient first aid stations.

A reliable refill option for workplaces, healthcare settings and high traffic areas where fast access to saline wipes is essential.

Product code - 1601023

Wallace Cameron Ultra Soft Pocket Tissues

Soft, strong and absorbent tissues for everyday use.

These tissues are designed to provide reliable performance for general use, offering a balance of softness and strength. Their absorbent material makes them suitable for a range of applications, including cleaning and drying.

Ideal for refilling eye wash dispensers and first aid kits, they support hygienic care and quick response in emergency situations.

A practical addition to workplaces, healthcare settings and public environments, ensuring essential supplies are always available when needed.

Product code - 6604028B

Alcohol Disinfectant Wipes (Tub 200)

Effective surface disinfection for hygiene critical environments.

Medipal Alcohol Disinfectant Wipes are designed to quickly clean and disinfect surfaces, helping to reduce the spread of bacteria and viruses. Suitable for use in healthcare, workplaces and public settings, they support effective infection control.

Impregnated with alcohol, these wipes provide fast acting sanitisation, making them ideal for high touch areas and equipment.

Supplied in a convenient tub of 200, they are easy to store and access, ensuring wipes are always available when needed.

A practical solution for maintaining cleanliness and hygiene across a wide range of environments.

Product code - W600110MPCE
